

# CHRISTOPHER JIMÉNEZ MANZANO

Las Palmas de Gran Canaria, España | +34 617 13 98 61 | christ.jmanzano@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

## Technical Skills

---

- HTML | CSS | Tailwind CSS | JavaScript | TypeScript | React.js | Next.js | Storybook | Figma
- Node.js | Express.js | Python | Django | Flask | Java | SQL | NoSQL
- Jest | Unit Testing | E2E
- Docker | CI/CD
- OOP | MVC

## Experience

---

### Systems Technician - La Casa del PC S.L, Las Palmas de Gran Canaria, España (09/2023 - 09/2023)

- Managed the installation and configuration of computer equipment.
- Administered the inventory of various devices, gathering key information to optimize their management.
- Resolved 100% of reported issues, significantly improving the quality of on-site support

### Systems Technician - COF Las Palmas, Las Palmas de Gran Canaria, España (03/2023 - 06/2023)

- Addressed and resolved 80% of received errors, improving the quality of remote support.
- Managed the inventory of various computer equipment, collecting key data to enhance management.
- Managed and resolved technical support tickets using Znuyn, ensuring timely and efficient customer service.
- Improved team performance by 20% by updating hardware and software, and fixing equipment errors.
- Executed 3 technical projects, successfully deploying two, including a RAID system and network monitoring, improving my skills.

## Education

---

### Professional Training of Cross-Platform Application Development - IES El Rincón (09/2023 - 06/2026)

- Specialized in creating applications for multiple platforms, including mobile, web, and desktop.
- Participated in full-cycle practical projects, from planning and design to development, unit and functional testing, as well as deployment across various environments.
- Acquired skills in database management, cloud service connectivity, and user interface adaptation to ensure an optimized experience across different devices.

### Professional Training of Microcomputer Systems and Networks - IES El Rincón (09/2021 - 06/2023)

- Acquired practical skills in installing, configuring, and maintaining computer systems and networks.
- Learned to troubleshoot and resolve hardware and software issues, manage network infrastructure, and ensure system security
- Completed coursework and projects focused on system administration, network configuration, and technical support.
- Acquired proficiency in office software applications (word processing, spreadsheets, presentations, and database management).

## Professional Development

---

### Full-Stack Developer - Develhope (02/2024 - 08/2024)

- Developed skills in HTML5, CSS, and React through practical projects and exercises.
- Gained experience with Node.js and JavaScript through real-world projects involving server-side logic and API development.
- Collaborated with a team to complete comprehensive projects, including designing, building, and deploying full-stack applications.
- Applied Agile methodologies to manage project workflows and deliver functional software solutions.
- Utilized Git for version control and npm for managing project dependencies.

### Microcontroller Course - TECHCOLLEGE (05/2022 - 06/2022)

- Completed a comprehensive course on microcontroller programming with Arduino, focusing on hardware and software integration.
- Gained practical experience in designing, coding, and debugging Arduino-based projects.
- Developed skills in interfacing sensors, actuators, and other components with Arduino for various applications.

## Soft Skills

---

- Proactivity | Teamwork | Problem-Solving | Attention to Detail | Time Management | Continuous Learning

## Languages

---

- Spanish - Native | English - B2 |
